BIJOU'S BILL FOR NEXT WEEK HAS SCORED SUCCESSES

Is One of High Class Action and Contains Many Surprises.

A bill of excellence is promised by the management of the First street Bijou for the first half of next week. Vaudeville acts that have scored big successes in the east will be seen and a variety of entertainment will be offered.

The bill is one of high class acts and contains many surprising novelties. The singing portion of the bill is particularly good and the comedy end is by no means neglected.

Something out of the ordinary is the turn, exploited by Lewis and Lewis, who are billed as classy entertainers and from all reports are living up to their billing. They have learned to be high class entertainers by years of endeavor and hard-earned experience. Their work is wonderful, their wit is keen and their voices are harmonious, while their dancing is graceful.

Miss Made Rowlands has become known as one of the leading comedienne of Australia and comes heralded by lavish press notices based on her by newspapers and public of that antipodean country. She possesses that subtle quality known as magnetism, with which she pulls over her material with telling effect.

Stanley and Stewart are a singing and dancing team who have, perhaps played more times on the De Luxe circuit than any of the other acts. Refinement and distinction is a big asset of the act.

For the headline, the management announces the coming of Walter Reynolds and his own company. The act in which this company will be seen is dramatic in every sense of the word. In this playlet Mr. Reynolds has ample scope for his remarkable ability.

MARGARET ANGLIN.

Everything that might be expected from one of America's foremost exemplars of the Shakespearean drama, all the values that can be imparted by an experienced and gifted artist, supported by an extraordinary company of Shakespearean players, together with all the scenic accessories known to modern stage-craft, will be the attractive and interesting offering at the Empire theatre on November 6, 7, and 8, when Margaret Anglin will present a brilliant record of Shakespearean comedies.

A JAPANESE SAYING.

The inner side of every cloud is bright and shining. And so I find my clouds inside out. And always wear them inside out, so that the lining.

William Kirkpatrick, 65, was shot to death in Bismarck, N.D., the other day, when he attempted to stop a fight between his two sons.

MISS GRACE AYLESWORTH

As Emma Brooks in "Paid in Full" at the Lyceum next week.

Benson of Benson and Belle---Powers' Elephants---Blossom Robinson of Link and Robinson

"IN THE JAWS OF THE LAND SHARK" AT THE MONARCH

Weird and Fascinating Drama—Love and Gratitude—Against Crime.

PACHYDERMS AT PANTAGES THEATRE ALL NEXT WEEK

Takes Ten Years to Perfect Elephants in Their Stage Work.

Every school boy remembers reading of the wonderful sagacity with which elephants are endowed; in fact, it is generally understood, that they are perhaps of all animals the most apt to pick up tricks and be taught to work, but Charles Powers, who owns and trained his own troupe of performing elephants, rather disabuses the idea that elephants are easy to teach. Mr. Powers, who since he has been connected with this class of animal, is the trainer of the group of pachyderms who appear at Pantages theatre next week, and tells of the arduous work which he encountered while teaching his youngsters, as he calls them, the many stunts which they go through.

"I know that very few people will believe me when I say that it takes the better part of 10 years to perfect an elephant in his work so that he may appear on a stage or in a circus," said Mr. Powers. "For instance, I can truthfully say that I have worked on three of my youngsters for nearly 15 years and for many hours every week during that time. Of course, you must understand that the hardest time is the first few years, when they do not readily understand what is wanted of them. After they have become used to their trainer and his ways and understand that they have to perform their various tricks, they become wise and take up their work readily and willingly. In fact, they seem to take as much pleasure in it as a person does in doing something else.

"Of course, if you are training young members with a number of older ones which you have had in hand for some time the obstacles to be encountered are not so many, as they watch the others and pick up from them. They do not like anyone other than their trainer to put them through their paces and I had a very hard time when I tried to teach "Baby," who, by the way, is my pride of all the troupe, him. He absolutely refused to do anything for her for many weeks despite the fact that she had been appearing in his ever since she was a tiny tot and had ridden him and been picked up on his trunk, but when it came to where he was to exercise authority over him he did not like it. However, after a time he grew accustomed to obeying her orders and now it is very difficult for any of the other trainers who travel with us to make him even obey the simplest command such as climbing into the baggage car when we travel.

"It is very fond of my girl and I know would fight for her but it was most peculiar to see the little fellow when she attempted to work him. He refused to budge and would look over at me with the wisest look in his eyes and although I would also order him he reluctantly performed for me.

"And another thing that few people will believe and that is that animals get stage fright just the same as performers. I well remember the first time that I opened at the Hippodrome in New York city and I could scarcely manage used to the huge proportions of the stage and the dazzling of the arc lights on the wings and the sight of the vast audience, lie upon their, seemed to cause them a great deal of fright and I

Who appears with his own company that will headline the Bijou bill the first half of next week in "The Mysterious Visitors."

WALTER REYNOLDS TELLS A STRANGE STORY OF WOMAN

Appears as Spook in Family Which She Had Acted as Servant.

Walter Reynolds, appearing with his own company in the headline attraction at the Bijou the first half of next week, tells a strange tale of a woman servant, employed by his family in London when he was a small boy.

This servant, it seems, unknown to the Reynolds family, had a child that was living with relatives somewhere in England. The servant died, and a short time afterwards, appeared on numerous occasions before different members of the family.

In appearance, she seemed to be greatly troubled, although as an apparition, she never could be made to say anything. Mr. Reynolds' father was greatly interested in the case, and investigated the woman's past. He found that the relatives of the child had treated it very badly, and placed it in a foundling asylum. The older Reynolds had the child taken away from the asylum and placed in a suitable school, where it could be carefully looked after. Again the apparition appeared, this time with suggestions she made known her satisfaction. This was the last that was seen of the apparition.

This instance only serves to emphasize the amount of attention to detail and wonderful care the Cines company displayed in making "The White," which is well deservedly called the premier photo drama of the world.

SOME CLEVER ACTS AT THE ORPHEUM AT JASPER EAST

Hazel Dell and Harry C. Willis Come Highly Recommended.

A good bill is promised at the Orpheum, Jasper East, for next week, and manager Abrams seems quite pleased with his coming bill. Hazel Dell, known as the "Happy Girl," is a handy artist of no small reputation, and her happy-go-lucky disposition will no doubt win her favor with the audience. Mr. Harry C. Willis is billed as the "Versatile Ventriloquist" and as a funmaker he is at in his line. His part of the entertainment should please the children.

Prof. Lingo, celli soloist, who closes a successful week tonight has been persuaded to cancel other engagements and the music loving public will have the opportunity of hearing him another week. He will render different selections during each program.

The picture part of the program is secured from the General Film company, which is the highest photo play service in the world and a well selected drama, scenes and comedies will be shown at each performance, which changes every Monday, Wednesday and Friday.

Charles E. Evans, partner of "Old Horse" Ross, who were the most famous team in America, has again entered the vaudeville field, this time in a domestic tragedy, "The Forgotten Combination."

HARRY C. WILLIS.

With Willis and Dell, at the Orpheum, Jasper East, all next week.

FRED CARLTON ADVISES WOMEN TO LEARN BOXING

Would Develop Arms, Shoulders, Chest and Other Parts of Body.

It is not often that an athlete has a message to convey to the public, but Fred Carlton, who comes to the Empire theatre the first half of next week as a feature of the orpheum vaudeville bill is a student for physical training who is quite the fourth best athlete of America as a result of his improved ability in his chosen calling.

Mr. Carlton rises to advise the ladies to practice the noble art of boxing. This exercise, he declares, develops the arms, the shoulders, the chest and other parts of the body in which women are deficient. It has a salutary effect on those threatened with tuberculosis, for it forces a constant to breathe deeply and regularly, and serves to strengthen the lungs and other organs which are for the greater part of the time cramped by costiveness.

Boxing has more than a development value. If a woman is able to stand in no fear of the impertinent snarler on the street corner, she is a heroine. It is wonderful and commendable that she should be able to come into the eyes of the street makers when a girl who has been trained to box by her father, who is a champion, with an "uppercut" or a "hook" to the jaw. And many are the instances where the athletic girl has snide-handed put a brawler to flight.

Boxing also serves to correct a peculiar trait of women, their sensitiveness. A millionaires son he filed his son he was hassled because it taught him to take defeat in a manly fashion. When they begin boxing the lips quiver, the face flush and the eyes grow moist, but a few lessons teach women what they all need to learn to eliminate the personal element, and as an other sport, boxing trains the player to endurance, and is the best tonic in the world for that characteristic of which nature inclines one to arrive with caution that being a good box to take up.

Fred Lindsey, the Australian bushman, who scored emphatically over the Orpheum circuit a few seasons ago, has returned for a second tour. Mr. Lindsey presents probably the most unique act in vaudeville. However, his performance is not really more interesting than his own career, which has been made up of adventures in practically all of the unfrequented parts of the world.

Although seemingly a broad assertion, Sophie Baranoff's claim to be the handsomest governed actress on the American stage will probably never suffer contradiction. Miss Baranoff's powers are of Parisian creation and the French's haughtiness in rose has been the cause of discussion ever since Miss Baranoff began her present tour of the Orpheum circuit.

Among the passengers on the giant steamship Imperator, which arrived recently at H. M. Zazzali, who comes to America for a tour of the Orpheum circuit. Mr. Zazzali and his company are offering a comic-mime, sketch, "The Bloemend," which has been one of the features of the foreign cruise for several years.

Professor S. H. Langdon, of Oxford, has discovered that a university existed in Babylon 3200 B. C.

"PAID IN FULL"

NEXT WEEK AT THE LYCEUM THEATRE

Was one of the Greatest Successes Two Seasons Ago in New York.

Joe Brooks, Richard Mann, John Smith, Harry Gault, Captain Williams, Grace Ayresworth, Miss Brooks, Grace Ayresworth, Mrs. Harris, Marie Davidson, Mrs. Harris, Tryon Salomon.

Another Edmonton favorite will be seen at the Lyceum theatre next week when "Paid in Full," Eugene Walter's wonderful study in depravity, which scored one of the greatest successes of two seasons ago in New York and Chicago. Few dramas of modern life have excited the appeal that "Paid in Full," as Mr. Walter's "Time Factor," has the power for expensive and attractive changes of scene. "Paid in Full" indicates a temptation that can be played in the path of a man of weak morals, and the consequent fall of this man who stoops to compromise his wife in a financial manner, but for the intervention of Captain Williams, whom Joe Brooks seeks to draw into the controversy and Harry Smith, a young man with a sunny disposition and lots of optimism to waste on his friends, Brooks might succeed in his determination to make his wife a party to a despicable compromise.

The company presenting this play next week, well be seen, but every part will stand out and each contribute so small amount to the unravelling of the plot. Miss Ayresworth has one of her best roles in Emma Brooks, the much-abused wife of the abominable clerk, while Harry Gault has played Captain Williams on several previous occasions, and is said to do very effective work in the part. Edward Mann will have Tully Marshall and part of Joe Brooks, perhaps one of the most despicable characters on the American stage today.

The total Wednesday and Saturday matinees will be played at the Lyceum.

NEXT WEEK THE JOINT DEBATE THE EXHIBITION HALL RACE EVER SETS ANYTHING.

The world is full of men who can't study jobs to search for buried treasure.

PANTAGES THEATRE

PRESENTS FINE BILL NEXT WEEK

In Addition to Elephants, English Dancers Will Appear With Host of Other Attractions.

Topping the bill at Pantages theatre next week are the elephants that made the New York Hippodrome a favorite resort for jaded New York theatre goers when they saw there for the first few seasons to refreshing an example of animal brains and capacity that the beasts came to be called the Hippodrome Elephants in place of their original title Powers elephants. These large beasts have been trained to do everything but speak, and wonderful acrobatic feats have been attained during the tremendous spectacles which were produced in the largest theatre or amusement house in North America. They were a source of wonderment to all who saw them. They are coming direct from an eight year run at the Hippodrome where they have won the admiration of all the vast populations and will perform many of their most difficult feats on the stage of Pantages. It is the first time in the history of the city that elephants have ever appeared on the stage.

An act that will delight the heart of all Englishmen who think that the music hall of the old country are far ahead of the vaudeville theatres here, will appear when Benson and Belle two English dancers and character impersonators present a number of new and startling eccentric dances. Mr. Benson made a reputation for himself in England over the Moss and Sholl circuit for his clever delineation of coster and cockney characters and he was noted there for his clever impersonations of the most famous comedians of the day.

Billy Link and Otto Brothers on several previous occasions, and is said to do very effective work in the part. Edward Mann will have Tully Marshall and part of Joe Brooks, perhaps one of the most despicable characters on the American stage today.

The total Wednesday and Saturday matinees will be played at the Lyceum.

NEXT WEEK THE JOINT DEBATE THE EXHIBITION HALL RACE EVER SETS ANYTHING.

BELLE ASHLYN

AT ORPHEUM SHOWS UNUSUALLY GOOD

Two Songsters and Billy Gould and Belle Ashlyn Headliners.

Marie McFarland, whose voice has proven nothing short of sensational in vaudeville will be heard here together with "Funnie," the first half of next week at the Empire theatre as the headliners of the Orpheum vaudeville bill. There is no doubt that vaudeville has never before possessed so rare an acquisition in songsters as this duo. Indeed, Marie McFarland's song is a sensational success in grand opera or concert. These girls are youthful and beautiful, and have a most refreshing freshness of voice. Madame "Q" is scarcely less gifted than Marie McFarland, and is truly the sweetest of sweet voices of the stage. They have wonderful natural voices, and have a most unusual and original style. Their repertoire is almost limitless and their selections are for the most part golden melodies from the pages of famous operas with an occasional ballad, Marie's Bill Gould and Belle Ashlyn, the vast majority who have acquired the vaudeville stage in the more numerous of their appearance is sufficient; for they have a penetrating voice of sunshine that dispels the gloom. Their followers have a habit of getting into a groove for a while when they see these girls, and then a note when the music comes not forth the time of their performance. The rendition of Mr. Gould's and Miss Ashlyn's style of entertainment must necessarily sound like. Their performance is a success, is decidedly away from the conventional, they sing, and dance as a matter of course. Their comparison with most vaudeville acts would be like comparing that of crystal and diamonds. Personally, appearance, style and ability have combined in making the two as distinct as day and night as a calm light on a dark sea.

It is question as to whether John E. Hazard is best known as a comedian or an author. His series of verses "Ain't It Awful, Mabel," have been universally read and lauded as. While his original character comedy creations in a dozen theatres in the last of his career, the enjoyed featured distinction has made him an actor of enormous popularity. When Mr. Hazard is not appearing on the legitimate stage and not engaged in his own series of verse he is busy in his attention to vaudeville.

Elizabeth Walker and under the direction of Charles Frohman, the Schuberts, Kaye and the late Henry H. Wood are responsible for Austin Webb's high position in the drama.

Webb played the principal role with the western company of David Belasco, playing a subject timely interest.

Webb has been considered an actor of every kind. Ever since Dupree and Dupree have been exhibiting the really wonderful routine of difficult posing that at present occupies their vaudeville act. Dupree and Dupree, a man and a woman execute many far-reaching stunts that when they are usually considered difficult is executed by them in it appears almost perfect. When they are in some manner so that their striking the stage is noiseless and in their own words.

Phlegmatic gymnasts are somewhat of an unusual combination that the two Carlton give more effort. These young men have secured the reputation of acrobats of the most difficult sort, but have stepped aside from the ordinary by describing the most difficult feat, regardless of how difficult the feat may be. The many artist for each feat, in some manner so that his striking the stage is noiseless and in their own words.

Manlaughter in Second Degree
Cutting corns with a razor is dangerous and useless. The only remedy is Putnam's Corn Remover, which cures corns and warts in one day, without pain and safe, use only Putnam's. 25c. per bottle at all druggists.

TURN ABOUT FAIR PLAY.
British, Esq., Oct. 25.—Students of Trinity university yesterday avenged the burning of the sports pavilion of the university by suffragists, by burning the windows of the offices of the militant suffragists, dumping the furniture in the streets and making a bonfire of it. The students were cheered by large crowds as they wreaked their vengeance upon the suffragettes.

TWELVE YEARS HORRIBLE TORTURE

Ontario Lady Suffered Tortures for 12 Years
with Burning Eczema. "Fruit-a-tives" and
"Sootha-Salva" Completely Cured Her.

MISS LAURA E. MATTICE

NEWINGTON ONT., Jan. 22, 1913

"I was a dreadful sufferer from that awful complaint Eczema, or Salt Rheum, and this trouble bothered me for about 12 years. My hands and arms were chiefly attacked, and the pain and irritation were terrible. I consulted several doctors and tried every remedy I heard of, but nothing did me any good. Last June, when in Ottawa, a friend asked me to try 'Sootha-Salva' Ointment and to take 'Fruit-a-tives' at the same time. I had little hopes that this would be any better than the other remedies, but after I had taken two boxes of 'Fruit-a-tives' and used one box of 'Sootha-Salva', I was entirely cured, and all of the irritation and annoyance left me. My hands have been, ever since, perfectly free from the Salt Rheum, and I have had no more of the disease. I look upon the cure as wonderful, inasmuch as no physician was able to cure me, and I had tried every remedy that I had been told about, yet without the slightest benefit, until I used 'Sootha-Salva' Ointment and took 'Fruit-a-tives'. 'Fruit-a-tives' cooled the blood, and practically relieved the disease and the Ointment completed the cure. I cannot sufficiently thank the proprietors of these medicines for my relief and I make this statement with the hope that some sufferers from Chronic Eczema or Salt Rheum, will read my testimony and try this wonderful ointment and 'Fruit-a-tives', and get well. No one can estimate the torture of this terrible disease who has not suffered from it, and I want the good news, that a remedy has been found, to be known everywhere."

(Miss) LAURA E. MATTICE

"Fruit-a-tives" and "Sootha-Salva" will cure any case of Eczema, no matter how severe or how long you have suffered. Eczema is caused by impure blood, chronic indigestion, constipation and nervousness, and there is usually a tiny parasite or germ which attacks the skin and causes the burning and itching. "Fruit-a-tives" removes all impurities from the blood, tones up the stomach, improves digestion, and regulates the bowels. "Sootha-Salva" kills the germs of Eczema, dries the burning, and inflammation, and stops the intense itching. If you are suffering with Eczema, no matter what you have tried for it, take the advice of Miss Mattice and use the wonderful combination of "Fruit-a-tives" and "Sootha-Salva".

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c. "Sootha-Salva" is 50c box. Sent on receipt of price by Fruit-a-tives Limited, Ottawa.

CANADIANS HAVE ACHIEVED FAME IN UNITED STATES

Senator Gallinger, Surgeon.
First Saw the Light Near
Cornwall, Ont.

Washington, Oct. 15.—Canada is becoming more than ever appreciably known "nationally" in the United States today, and with wider trade relations between the two countries becoming immediately possible in the light of tariff changes under the new law, Canada is again forming the subject of close study by business men, who are anxious to know the possibilities. Indirectly, attention is being drawn to Canadian men who have distinguished themselves in the capital of the United States. In another letter reference has been made to one of these in the person of Mr. F. K. Lane, secretary of the Interior.

Senator Gallinger, Surgeon.

He served six terms in the house and Senate, being president of the latter body for two years. He was also a member of the constitutional convention of 1870 and in 1879 and 1880 was surgeon-general with the rank of lieutenant-general. His standing as a physician is indicated by the fact that he is now on the board of trustees of Columbia hospital for women in Washington and a member of the board of visitors of Providence hospital, also in this city. His political career began in 1872, when he entered the New Hampshire legislature, and has been practically continuous ever since.

Was President of Senate.

WELLAND CANAL ONE OF MODERN WORLD WONDERS

Opens a Gateway Into the
Heart of a Great
Continent

NEW GAUGE WILL MAKE
WAY FOR OCEAN CARRIERS
Will Be Deepened to 31 Feet at
Cost of Fifty Millions.

While thousands are so adversely turned on the Panama Canal, now nearing completion, it is not unreasonable to refer to this country's great programme of canal building. Canada cannot open a waterway reaching into the heart of the continent that will be one of the wonders of the modern world. Vessels of considerable tonnage can now come loaded from the Canadian head of the lakes at Fort William and Port Arthur to the mouth of the St. Lawrence. When the canal system is changed to the new gauge from end to end, ocean carriers of large capacity and under full burden can travel between the other side of the Atlantic and the Canadian head of the lakes. The cost of such an enterprise will not be small, but the benefits will be well worth the money. True, the Government has not yet formally committed itself to the whole undertaking. However, the Minister of Public Works was in Toronto a few weeks ago and he stated that he looked forward to the time when large ocean vessels would bring their cargoes to the head of the lakes and take on full loads there for trans-Atlantic ports. Mr. Cochrane's statement at St. John's, Nfld. a few days later was of like tenor. He said that the canal system as a whole would be improved. At the same time it was announced that the right-of-way for a new St. Lawrence canal was arranged for.

The New Link.

The new Welland Canal, a work much of which is now under contract, fixes the scale for the whole system. Every other canal in the chain will have to be brought into correspondence with the new Welland canal. If that great work is to play its part to the fullest national advantage, the largest grain-carrying vessel on the upper lakes can take a cargo of about three quarters of a million bushels of wheat, the Welland Canal deepened to 27 feet, as the contract requires, would afford transit for such a loaded vessel from Lake Erie into Lake Ontario, and would thus extend the voyage, without breaking bulk, to ports on the latter lake. That would be material gain, but it is not one solely for which the Welland Canal would be enlarged at a cost of \$50,000,000. The ultimate deepening of the St. Lawrence canals is in the Government's contemplation.

Canada's Giant's Gateway

The Welland Canal is about 27 miles long, and the Lake Erie end of it is 327 feet higher than the Lake Ontario end. The lifting of vessels up that attitude is 327 feet is done in 26 locks. The new canal will have seven locks. That will mean an enormous saving of time. The working of the seven locks will detain

vessels a much shorter time than the working of the 26, but the several lifts will, of course, be much higher. If two hundred of the same length are prepared against a wall, the one having 25 ramps and the other but seven, much greater strides will be required to climb the one than to climb the other. The new Welland Canal will be a water highway of seven mighty steps. It will truly be the Giant's Gateway of Canada. It will be a suitable staircase for these monster pictures, the carriers of the upper lakes. Up and down it they will safely pass, the vast loads being moved by power generated in the water flow from higher to lower level.

The Old Canal

How the history of one period became the ordinary thing of another? When the old Welland Canal was built it was looked upon as one of the greatest works carried out by human enterprise. The very interesting account of it if copied by Mr. Thomas Mefer and published in pamphlet form must cause all Canadians who read it to honor the indomitable spirit of William Hamilton Merritt. The changing of that early undertaking by his son, the late Frederick Merritt, gives some idea of the difficulties that had to be overcome in the promoting and carrying out of this work. The original Welland Canal, and the additional line of canal that is known as the "new canal," have played a great part in the development of the country. They served their day. Improvements in vessel construction have brought the need for very much enlarged connections between the upper and lower lakes, and we are now beginning to realize that the canal that is to be more than twice as deep as the old one.

Toronto Harbor

The waterway improvement cannot stop at canal enlargements. The larger vessels the canal has from one lake to another require deeper and more commodious harbors. Toronto and Hamilton, on Lake Ontario, must have their harbors put in order to receive the life craft that will come through the enlarged Welland Canal. Toronto's progressive harbor Commission is already at work. Its magnificent scheme of harbor and water front improvement meets all the new conditions. The Minister of Public Works was delighted with that scheme, and promptly showed his approval of it by awarding the contract for carrying out the Government's part of it. The conditions are based on changing this was that the work be completed in four or five years, instead of eight or ten years, as the commissioners estimated. The reason for his requiring that the work be done so speedily is that he counts on having the new Welland Canal ready for traffic in four or five years.

CASE ADJOURNED

Winnipeg, Oct. 25.—Evidence in the case against R. A. Buchanan, the C. N. R. conductor charged under the recent commissions act with collecting fares from a passenger and not reporting it on August 3 was finished today and the case was adjourned Monday, the Magistrate's Bench decided to read some notes on the evidence.

Baker's Cocoa IS PURE AND GOOD

Known the world over as
the cocoa of high quality

Its delicious flavor and perfect
digestibility make it a food drink
of exceptionally great value.

CANADIANS HAVE ACHIEVED FAME IN UNITED STATES

Senator Gallinger, Surgeon.
First Saw the Light Near
Cornwall, Ont.

Washington, Oct. 15.—Canada is becoming more than ever appreciably known "nationally" in the United States today, and with wider trade relations between the two countries becoming immediately possible in the light of tariff changes under the new law, Canada is again forming the subject of close study by business men, who are anxious to know the possibilities. Indirectly, attention is being drawn to Canadian men who have distinguished themselves in the capital of the United States. In another letter reference has been made to one of these in the person of Mr. F. K. Lane, secretary of the Interior.

Senator Gallinger, Surgeon.

He served six terms in the house and Senate, being president of the latter body for two years. He was also a member of the constitutional convention of 1870 and in 1879 and 1880 was surgeon-general with the rank of lieutenant-general. His standing as a physician is indicated by the fact that he is now on the board of trustees of Columbia hospital for women in Washington and a member of the board of visitors of Providence hospital, also in this city. His political career began in 1872, when he entered the New Hampshire legislature, and has been practically continuous ever since.

McCAULEY SCHOOL PROBABLE VICTORS IN SOCCER LEAGUE

Team Now 'Heads' Standing and Has One More Easy Game to Play—Race is Close.

KING EDWARD TEAM IS FORGING TO THE TOP

Teams Are All Improving Game and Contests Are Close—Results of Thursday and Friday Games—League Standing.

The contest in the public school soccer league is becoming more interesting every day. The teams are improving their playing steadily and yesterday's game was reported as the fastest and most interesting played yet.

McCauley school team has practically cleared first place in the league. It has but one more game to play which in all probability it will win. In order to lose first place it must lose that game and Queen's avenue school which is next would have to win its last two games.

The closest race is for second place. Northwood and King Edward are pushing Queen's avenue hard for this place.

The league schedule ends next Friday night and the games which will be played during the coming week will be very interesting.

The King Edward school of the south side is coming to the front rapidly. The boys on that team are small but they have perfected team work to a point where they better degree than the average school league team. They won both Thursday and Friday games.

As to the team finishing at the top of the league goes the football school, holder of championship of Northern Alberta at public school level.

The results of Thursday and Friday games are as follows:

Probable best Queen Alexander 1 to 0.
King Edward beat Oliver 1 to 0.
King Edward beat McKay 4 to 1.

Friday:
King Edward beat Queen Avenue 1 to 0.
McKay beat Alex. Taylor 2 to 0.

The standing of the teams is as follows:

Team	Won	Lost	Tied	Points
McCauley	6	0	1	13
Queen Alexander	5	0	1	11
Northwood	4	1	1	9
King Edward	4	3	0	8
McKay	3	4	0	6
Alex. Taylor	2	4	0	4
Parliament	1	4	1	3
Parliament	0	4	2	2
Queen Alexander	0	2	2	2

There are about 37 species native to the United States, of which 25 are western species and 12 eastern.

SUFFERED THREE YEARS

Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the middle of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy and burning it caused a burning sensation in the bladder. I tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife's years before. A few boxes effected a complete cure. I now enjoy the blessings of good health, with no more pain or trouble."

Don't get kidney trouble—its too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and acid headaches, and in purifying the blood. See a box at your druggist's.

Sold by all first-class dealers, rates and clubs.

Special Train to Run to Red Deer for Rugby Game

Expected that Fully 500 Fans Will Accompany Eskimos to the Half-Way Point to See Finish of Calgary Tigers Next Saturday.

When the Edmonton Eskimos go to Red Deer next Saturday to play off the Rugby championship with the Calgary Tigers they will probably be accompanied by several hundred ardent fans from home who will be prepared to back them with their last breath and dollar. Arrangements have been made for a special train to carry the team and those who wish to see the game from Edmonton. The C.P.R. has been guaranteed that 200 people will go and in all probability there will be a half thousand more. That Thanksgiving Day game when the Tigers were trounced by the Eskimos, rugby has taken first place in the minds of the local sportsmen and there will be many who would not miss the play off at any cost. The special train will leave Edmonton at 10 o'clock in the morning, arriving in Red Deer about an hour before the beginning of the game and will leave about an hour after the close of the game.

Calgary will also run a special train and it is quite probable that the citizens of Red Deer will notice that there is something taking place in their town.

The Eskimos are working hard to perfect their weaknesses and will present a stronger team next Saturday than that which beat the Tigers on Thanksgiving Day. A special game will be played at Diamond Park this afternoon with the Civics' intermediate team.

Clabby Not Another Ketchel But is a Corner in the Ring

Pugilistic Scribe Thinks Clabby is One of Cleverest Present Day Fighters—Strong on Defence.

San Francisco, Oct. 25.—It was all right to entice away the way Clabby handed Salford Petrosky, but when he went to call Jimmy a second Salford Clabby acted as a clever, cunning, and crafty as he has ever been in an opponent's hands. He is a fighter who is as good as a winner in a fight as he is a loser. He is the cleverest of the old school, but he is not a fighter who is as good as a winner in a fight as he is a loser. He is the cleverest of the old school, but he is not a fighter who is as good as a winner in a fight as he is a loser.

Clabby's fight with Salford Petrosky was a real fight. He is a fighter who is as good as a winner in a fight as he is a loser. He is the cleverest of the old school, but he is not a fighter who is as good as a winner in a fight as he is a loser.

JACK JOHNSON AND HIS CLUB SLIGHT PROSPECTS FOR INTERMEDIATE GAME AT CALGARY

Intermediate Rugby Championship Not Decided There—Edmonton Must Wait

The Civics rugby team which won the championship of Edmonton in the Intermediate league has been anxious to secure a game with the champion team in Calgary to decide the provincial championship. The Calgary championship, however, seems not to have been decided yet. Apparently intermediate soccer there has not received the attention that it has in Edmonton.

The latter championship was won by default.

The prospects for a play off for the provincial intermediate and junior championships are, to say the least, not very bright. The long schedule of games in the Calgary Intermediate championship, the possibility of a home and away game being played with Edmonton for the Provincial championship, and the fact that the Royal College holds the Graham trophy emblematic of the Provincial intermediate championship, all tend to make the prospect for a play off for the championship very dim.

This year Edmonton appears willing and anxious to play the junior championship to go by default and to concentrate its efforts towards holding the provincial intermediate championship. The series of games have been arranged in the north under the general supervision of the union which have decided the Northern Intermediate section, which now corresponds to the senior section of the Intermediate which is now being played off in Calgary. The Civics have won the Northern division and are now very anxiously requesting that a Calgary team be selected to play off for the championship. However, it has been found altogether impossible to decide the Calgary championship before now owing to the fact that two of the teams which played in the Junior series are offered in the Intermediate series—known locally as the Senior Intermediate.

The prospect that this championship could be decided in the Junior series is a decided one in November 1. It will only be decided then provided it is not necessary to play off a tie in the Junior series. The prospect that this championship could be decided in the Junior series is a decided one in November 1. FINANCES DECREASE AS WAIST LINE INCREASES

Big Fighter Now Weighs 280 Pounds and is Grabbing for Any Kind of Money.

Toronto, Oct. 25.—Charles W. Galvin, well known to old time race track men in Western Canada, shipped into town recently from Paris, where he has been promoting fights for the Frenchmen. Mr. Galvin saw Jack Johnson while in France and declares that the champion is well high down and out.

"Stiff," Johnson is in low financial water right now," said Galvin. "What more he will never be able to put up anything like the scrap he used to do. He weighs 280 pounds, is as cumbersome and slow as an overfed pig in his movements, and looks as though the only way to get the fat off him would be to cut it away in chunks with a carpenter's plane."

"He is the first negro boxer who has lost popularity in Paris," John understood, "and he is so low in the eyes of the public in this country, but just the same, Johnson's actions have hurt his reputation in France, and he is now in a bad way."

Johnson's actions have hurt his reputation in France, and he is now in a bad way. Johnson's actions have hurt his reputation in France, and he is now in a bad way.

Automobile Owners Should Prepare for Cold Weather

A Little Precaution May Mean Saving on Repair Bills—A Good Non-Congealable Solution for Radiators.

With the approach of cold weather, which may appear with a remarkable degree of suddenness, no far as the motorist is concerned, there will come the usual wall about hard starting motors, frozen radiators, and cracked cylinders. It will be the same story, year after year—the average motorist will find himself facing a repair bill for one or more of the misadventures mentioned, all due to his own neglect in the matter of providing against the approaching of Jack Frost.

There is little danger, possibly, for another month in this matter and yet weather is such a changeable thing that a decided freeze may come any night, and where a car is kept in a cold garage or barn, the damage may have resulted in a short time.

Radiators are now so constructed that the copper tubing will stand considerable expansion due from the freezing of the water, but this is not so with regard to the water jackets of the cylinder, which, being made from cast iron, will crack immediately upon the forming of the ice, which exerts a terrific expansive force. It is not unusual that the iron between the water and the inside of the cylinder will yield, inasmuch as this is so shaped as to resist the expansion, where its neighbor on the outside would yield more readily.

Thus it is usual for the outside of the water jacket to suffer through the expansion. It is fortunate that this is so, because this is not a serious bit of danger, inasmuch as it may be easily remedied through the oxy-acetylene process of welding, which is a work of any good repair shop, or at least can be taken care of by it.

If the crack is exceedingly small a temporary repair can be made by the use of a solution of sal ammoniac, which when inserted into the crack temporarily forms rust and closes the opening. Another temporary repair may be made by the use of a mixture of glycerine and lard. In this case the parts should be thoroughly cleaned and the lard and glycerine made into a soft paste and forced into the crack. It should be left to harden overnight, and will then become almost as solid as the metal itself.

Naturally enough, however, the wall of the water jacket has become weakened, and it is better to resort to welding process to make a permanent repair, thus saving the expense of a complete new pair of cylinders.

It is still a better scheme to avoid

SCIENCE OFFSETS WEIGHT WHEN MEN FIGHT WITH FISTS

Small Man With Knowledge of Boxing Often Able to Stop a Big Fellow.

BUT UNSKILLED MAN WITH PUNCH OFTEN WINS

Joe Harris, Local Boxer, Tells How He Was Compelled to Show a Husky the Advantages of Science.

Can a small man, trained in the science of boxing, defeat a big man who knows nothing of the game but has two good strong arms? That is an oft discussed question among the followers of the boxing game, and one which has been answered in both the affirmative and negative by actual experience. One instance would indicate that the small man with the science is the better of the two while another case shows the skilled fighter put down and out by the punch of some husky opponent. It is a question that can never be definitely decided as there are no two cases of actual demonstration that are alike and there is no way of comparing the skill and the unskilled by any standard.

It is like trying to ascertain the ratio of two unknown quantities. However, there is one fact which is true, and which will offset a lot of weight in a fistful encounter.

There was a time when there were plenty of demonstrations of the comparative abilities of the trained and the untrained. Years ago, boxers were always getting into trouble by being too free at exercising their talents outside the ring. Many fighters in those days were killed or injured by being too free. There have been cases when some of the best in the business have run against a surprise in a man who, though unskilled in the art of boxing, had a kick in his arm equal to a mule's, and finding one opening with an overconfident boxer went home the happy maker.

Boxers Not Quarrelsome.

Nevertheless, however, the best boxers seldom engage in fights outside the ring. For the most part they are of a more gentlemanly disposition than the pugilists of the old school, and too, the boxer knows that it will go hard with him in court if he beats up a man, and the judge knows that he is a professional fighter.

However, there is no doubt that the small man with the science need have no little to fear from the big fellow with nothing but a punch, providing it is a little "keep" he has. A trained boxer can keep away from an untrained one and avoid his knockout drops, while the untrained man no matter how big is going to get a few hard swats from the little fellow. It is only when the boxer throws caution to the wind and makes it to mix things that he is liable to get into trouble.

Joe Harris's Experience.

Joe Harris, a well-known local boxer, tells a story that illustrates the point we have been trying to bring out. Joe, who is a lightweight, is a skillful boxer and he gives boxing lessons at a place out on Fraser avenue.

"One of my pupils brought a friend up to the gymnasium one afternoon recently," said Joe, "who thought he would like to take a few lessons in boxing. He was a husky big fellow,

weighing about 180 pounds and, as it developed later, he was strong as a mule. He works in the shops out at Calder where he is known as a good scraper, and he is highly respected, in a way, by the men in the shop in which he has settled several disputes that have arisen between other men and himself.

"The big fellow told me," said Joe, "that he was a pretty good scraper but that he knew little of the scientific end of the game. He asked if I would give him a few pointers. I agreed to do so, although I knew all the while that what was coming was I had had such experiences before.

"We donned the gloves and went out on the floor. I began by showing him something about footwork, a thing he knew nothing about. I don't mind now that he was a good fighter, but I knew that he was the greatest weakness. I soon saw that he was bored. The idea of being away from his own shop was not in his scheme of things. I considered that almost a disgraceful thing to do. His manner of fighting was hitting and always coming. I finally showed that he was disappointed in what I was showing him, so I showed him a few tricks in offensive work. He wanted to learn all right but he had such a good opinion of his own ability that he could not see that the things I was showing him had anything to do with his own.

Thought His Way Best.

"I don't believe your way of fighting is any better than mine," he said. "I was showing him, so I showed him a few tricks in offensive work. He wanted to learn all right but he had such a good opinion of his own ability that he could not see that the things I was showing him had anything to do with his own.

"I go after my man and set him. You waste to much energy hoping around. And then he suggested what I had been expecting, that we go after each other a bit. He in his way and I in mine. I did not want to do it, but I went on.

"He weighed 60 pounds more than I, and I knew if he hit me once I would be right with me. I knew that in order to fight some one, maybe make him angry. If there had been any of my heavy weight pupils around I would have sent one of them in with him, but there were only a few boys around.

"I was up on his toes and coming immediately and landed the first blow. I saw at once that I was up against a stiff proposition. Although he used no science, he had ferocious speed and strength. He came after me with a whirlwind springing wildly. All I could do for a few minutes was evade him, which was an easy matter so long as I did not attempt to land any blows.

"Several times he struck me and I was not completely across the ring. The full impact of any one of his blows landed squarely I would have gone down and out. I soon saw however that it would not do to foot-ace around from him all the time, that I must do something to up-hold my end of the demonstration. I began by side stepping one of his rushes and planting a hard left into his stomach. He was not expecting it and it nearly doubled him up. He came after me harder than ever before, landing a terrific swing.

"I came up fairly under his nose and landed a stiff jab on the point of his chin, and then beat it before he could retaliate. He seemed awfully surprised and it made him mad because I did not stand up to him. Again he came after me, this time with blood in his eye.

Becomes a Fight.

I saw that it had become to be a boxing lesson and had ceased to be a fight. I knew that he would never stop until I had put him out or admitted that I had had enough. So when he came I put all I had into a clout for his stomach again, as I side-stepped him. He went down on all fours and groaned but was up again and after me immediately. Twice I repeated that dose, side step-

FEW UNDERSTAND GRADE PERCENTAGE

Many Motorists and Dealers Use the Expression Erroneously.

Ever since automobiles became general in use there have been discussions as to what is really meant by grade percentage and it is doubtful if one motorist in a hundred can thoroughly explain the definition. Extraneous stories of hill climbing abilities of cars have been told, only recently the driver of a car, who had had years of experience, and who had traveled over the grade, but only for a short distance, and who had been told by a dealer that he was a 10 per cent. grade, he would not do so, as this is impossible but it is the most usual thing in the world, inasmuch as a 30 per cent. grade is almost unknown except for a short distance.

Gravity overcomes traction, at slightly over 10 per cent. grade means that for every four feet traveled in a horizontal direction there is a rise of one foot. In some cases, where the actual hill climb takes place, has one point where it shows 20 per cent. grade, but only for a short distance, and this is only corrected by the terrible machine the car has obtained up to this point. Many cars have been unable to make it at all.

A 30 per cent. grade means that for every four feet traveled in a horizontal direction there is a rise of three feet. In some cases, where the actual hill climb takes place, has one point where it shows 20 per cent. grade, but only for a short distance, and this is only corrected by the terrible machine the car has obtained up to this point. Many cars have been unable to make it at all.

One, however, said in favor of the grade, it is a great thing for the car to play in during the cold weather if confined to the basement.

One, however, said in favor of the grade, it is a great thing for the car to play in during the cold weather if confined to the basement.

GOVERNMENT BANK PROPOSED FOR U.S.

Would Have Huge Bank With \$100,000,000 Capital to Control Currency.

Washington, Oct. 25.—A government controlled and operated central bank, to dominate the financial system of the country, entered the legislative arena on Thursday as a rival of the administrative regional reserve currency plan. Frank A. Vandenberg, president of the National City Bank of New York, presented the new plan to the senate banking and currency committee. He had evolved the scheme as a result of conference with members of the committee who he said had expressed approval of such a plan.

Under his proposal the government, through a board of seven members, appointed for terms of 14 years and receiving salaries of \$15,000 or \$17,000 a year, would establish a huge bank with \$100,000,000 capital, which would control financial conditions by powers conferred on it to issue money, to discount commercial papers for banks and to concentrate the reserve gold of the country.

ring his rushes and landing on his stomach, and the last time he went down and said there. He was no longer angry. All the fight was gone and when he finally got him breath he sat up and admitted that there was something after all to scientific boxing.

"I won't say that it was because of any great cleverness on my part that I was able to get the best of him. Any boxer who knows the game could have done what I did. It was simply a case of avoiding his fearful punches and landing in the right spot. He put up no guard himself. I tell it merely to show that a man who knows how to box can manage a bigger man if he will keep his head and not attempt to mix it too freely."

DRIVES CAR ACROSS THE CONTINENT, WINS \$10,000

San Francisco Man Makes Novel Trip Limited to Six Times—No Shop Repairs.

San Francisco, Oct. 25.—G. Haven Smith of San Francisco has just made a trip from the golden state city to New York, made under novel conditions. Smith, an amateur driver, piloted his car from coast to coast in 30 days, and thereby won a prize of \$10,000. He was limited to six times in order to qualify for the money. Another of the unique conditions was the stipulation whereby he was not permitted to enter a garage or repair shop along the route for the purpose of making repairs or adjustments. He drove a Leontide.

Whatever situation was needed for the car had to be given. It was agreed, Smith, who had been driving the machine just four months, and by his wife, who accompanied him, she drove a Leontide.

Containing in themselves the active principle needed for digesting every kind of food, Na-Dru-Co Dyspepsia Tablets enable even the weakest stomachs to get the good out of what is eaten, preventing the accumulation of undigested food and gas. With a little help for a while, the digestive organs recover their strength, do their work properly, and your troubles are over.

LEGAL NOTE.

The judge who advises husbands to play the safe side of their wagers with their wives doesn't tell how to get their money.—Cleveland Leader.

A total of 2,617 vessels, of 3,666,767 tons, entered and cleared at Sault Ste. Marie, against 2,618 vessels of 3,668,386 tons in 1911. Of the total 1,627 vessels of 1,914,015 tons were British.

Na-Dru-Co Dyspepsia Tablets Quickly Put Disordered Stomachs Right

It's a revelation to the chronic dyspeptic to feel no discomfort after a hearty meal, when that meal is followed by one Na-Dru-Co Dyspepsia Tablet. He is hardly prepared for the almost magic relief which the tablet gives him from the various discomforts to which he is accustomed after eating.

Na-Dru-Co Dyspepsia Tablets give relief to stomachs that are sour—relieve stomachs that feel as if a stone had been swallowed—stop heartburn—and give the needed assistance to stomachs that are weakened.

Containing in themselves the active principle needed for digesting every kind of food, Na-Dru-Co Dyspepsia Tablets enable even the weakest stomachs to get the good out of what is eaten, preventing the accumulation of undigested food and gas. With a little help for a while, the digestive organs recover their strength, do their work properly, and your troubles are over.

Don't go on suffering! Get a box of Na-Dru-Co Dyspepsia Tablets from your druggist today. National Drug and Chemical Co. of Canada, Limited, Montreal.

News of the Markets

Winnipeg Grain Market.
Winnipeg, Oct. 25.—The local wheat market opened strong in America. Liverpool cables, even later, showed a recovery in the American market, and the market closed higher in sympathy with weaker foreign markets.
Winnipeg opened 1/2 to 1/4 higher and closed unchanged to 1/4 higher. Minneapolis opened 1/4 to 1/2 higher and closed with a loss for the day of 1/4. For both months, Liverpool market closed 1/4 to 1/2 cent advance, and Canadian market irregular.
Paris closed 1/4 lower, Budapest 1/4 lower, while other wheat was higher, Liverpool 1/4 higher. The cash demand for 2 and 3 months wheat was fair and quiet for No. 1, while offerings met the corresponding week's demand. Export inquiry was more active than usual, although inquiry was actual business was located. A wheat closed unchanged.
There was an improved demand for cash wheat and the price showed firmer. Cash wheat closed unchanged to 1/4 higher, options 1/4 to 1/2 advance.
Cash wheat closed unchanged to 1/4 higher, options 1/4 to 1/2 advance.
Cash wheat closed unchanged to 1/4 higher, options 1/4 to 1/2 advance.

EMBARRASSING TO GOVERNMENT.
Voting, Oct. 25.—The revolution yesterday, before the sub-committee appointed by the select committee to report on the American shipping service, and which was held in the morning of the 24th, was a very interesting one. The committee, which was held in the morning of the 24th, was a very interesting one. The committee, which was held in the morning of the 24th, was a very interesting one.

RUSSIAN NEW DEMANDS.
London, Oct. 25.—According to the point corresponded of the Daily Telegraph, Russia has presented fresh demands that China shall immediately recognize the independence of and consent to Russia regarding other Mongolia. China also required to recognize Russia's right to construct a branch of the Manchurian railway between Jiamusi and Kailash.

THE PETROLEUM INDUSTRY OF THE UNITED STATES HAS BEEN TROUBLED IN TWO YEARS.

THE DAILY CAPITAL'S WORD-FINDING CONTEST

IN THE CLASSIFIED ADS
Last Week's Prize won by Mr. Jack McGuire, 527 Carey Street
Contest Rules and Regulations
which must be carried out correctly in order to win this week's prize of "City Grocery Quality Cocoa" from
CITY GROCERY STORES

given in three equal lots in the first three parties entering Capital Office from the following districts: Two pounds to first party entering Capital with correct contest result from west of 18th street; two pounds to first party east of 18th street, and two pounds to first party from Edmonton South.

The puzzle this week is to find a 41 word paragraph which is scattered through the ads of the classified pages in parentheses. So many words of the paragraph inserted each day and on Saturday night the whole of the paragraph will have been on those pages during the week.

Following is the paragraph which will be found by carefully watching the want ads of this week's papers.

Following this again is an example ad with the words of the selected paragraph as they may be found in the classified ads this week.

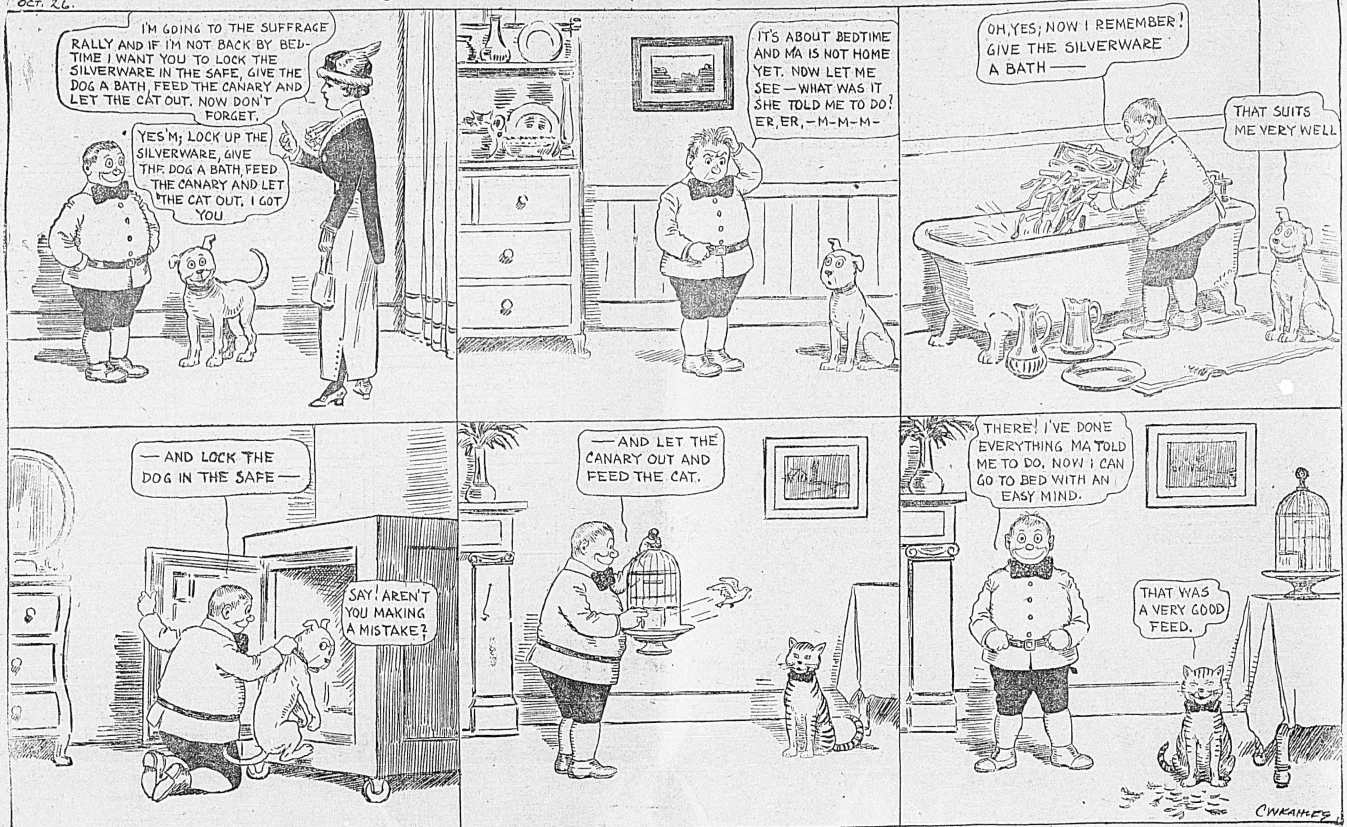

TRIVY CITY GROCERY STORES FOR a word puzzle thing to do, you will be assured of quality goods and service.
